

Competitor Availability

A competitor or their stand-in must be at the designated sign up area at the onset for the choosing of the order of play.

Competitors competing in two (2) divisions at the same time must have a stand-in hold his/her place and inform judges of the competitors status when competitor is called on to compete.

If the contestant is not actively competing in a division he/she must compete in the first division called on to compete in.

A contestant who is actively competing in a division will be allowed to complete their performance and then permitted a one (1) minute rest before competing again in the other division.

If the competitor missed the order of play in a different division when actively competing in another, the competitor will be allowed to compete without penalty.

Competitors arriving late and not yet signed up in a division that has been running may make a request to the Rules Arbitrator to be allowed to enter the division.

If the division has not ran all non-seeded performances and the contestant is ready to instantly compete the contestant's request to enter the division may be granted.

When a division has completed all its non-seeded performances no requests for entry will be granted.
