

## **Scoring Addition Errors**

If a competitor or their representative feels there is an error in the addition of the Judges scores on the official forms elimination form, the competitors representative may request a time out from the Center Judge and state their protest.

The Center Judge will verify the addition of the scores to determine if there has been an error in the addition. After the Center Judge has made his/her final determination, he/she will make any necessary corrections to the competitors score.

After the Center Judges has ruled on the addition of points protest, the representative will then be required to leave the competition area.
